FOR IMMEDIATE RELEASE

DISCOVER THE NEW POWER PARTNERS GROUP WEBSITE: Your Gateway to Sustainable Energy Solutions

Singapore, October 1, 2024 — Power Partners Group (PPG), Asia's leading power protection solutions and engineering services provider, today announced the launch of its newly redesigned website at www.powerpartners-awi.com. The revamped site delivers a streamlined, engaging user experience and provides quick access to essential information, showcasing PPG's commitment to innovation and customer satisfaction.

"We are thrilled to unveil our newly redesigned website, a project that reflects our unwavering commitment to innovation and customer satisfaction," said Matthew Kong, Managing Director of Power Partners Group. "The site is designed to better showcase the range of services we offer while making it easier for our clients to find the information they need. At Power Partners Group, we believe in the power of technology to drive sustainable growth and create lasting value. We are excited to share our journey with you and look forward to continuing to power industries forward with cutting-edge solutions and exceptional service."

Exciting Key Features:

- **Industry-Specific Solutions:** Tailored information and insights for sectors such as Data Centers, Manufacturing, Healthcare, Finance, Retail/Commercial, and more.

- **In-Depth Resources:** Access to case studies, blogs, and expert insights that delve into market challenges and offer practical solutions.

- **Enhanced Navigation:** A responsive design with a simplified layout and improved menus, ensuring a user-friendly experience and seamless browsing across all devices.

About Power Partners Group

Power Partners Group (PPG) is Asia's leading power protection solutions and engineering services provider. With extensive engineering skills, a diverse portfolio of successful projects, and a wide range of products, PPG specialises in designing, installing, managing, and maintaining critical power infrastructure for businesses across various industries. As a reliable one-stop partner for customized power supply systems and engineering services, PPG prioritises innovative and sustainable solutions that help companies reduce their carbon footprint, achieve cost savings, and ensure long-term sustainability.
